Title : Effective dose estimation during activities with naturally occurring radioactive materials - Part 1: Methods
Scope : The present ÖNORM helps to estimate the effective dose during activities with naturally occurring radioactive materials .
 The document can be applied by companies or staff working self-responsibly on work stations with potentially higher exposition to naturally radioactive material.

Title : Liquid fuels - Domestic fuel oil - Gasoil for heating purposes - Requirements and Test methods
Scope : The requirements and tests specified in this ÖNORM shall apply to "extra light fuel oil" and "extra light oil - sulfur free".
 With regard to the sulfur content, two qualities are defined in this ÖNORM (extra light fuel oil and extra light fuel oil - sulfur-free). Extra light fuel oil - sulfur-free is only suitable for use in such burner systems, for which there is a corresponding permission from the burner manufacturer. In certain plants, according to the manufacturer's specifications or local wastewater regulations, only extra light sulfur-free heating oil may be used.
